MELVIN LUCAS

Software Engineer

SUMMARY

Creative, detail-oriented software engineer equipped with a diverse and promising skill-set. Proficient in creating and implementing successful front and back-end web applications. Able to effectively self-manage during independent projects as well as collaborate as part of a productive team. Looking to bring my skills to a tech company with a global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured Fullstack web application.
- API development and integration.
- Coded software updates and alterations based on detailed design specifications

Recent Projects:

ScrubShoppie (Fullstack Web App) – Users can create a profile, add to cart and check out with PayPal payment integration. Admin can also check for orders and mark complete once order id ready.

PopCornflixx (Frontend Web App) - A React movies app where users can search their favorite movies, browse release dates and genre collection.

Other Projects: Small Lakes Casino Virtual Slot Machine, Los Angeles, StarGazers Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more.

Full Stack Web Developer at Mel's Consulting |Nairobi, Kenya

August 2021 — Present

Created full stack web applications and static websites for different clients across small and medium sized businesses. Also, consulted on SEO and social media strategy. Some clients included:

MentalCheck and Austin writing.

Marketing Associate and Customer Care, Equity Bank| Nairobi, KE

January 2018 —January 2019

Established a strategy and communications campaign that saw over 1000 new accounts being opened and businesses using the bank's E-commerce products that raised 112% branch revenue.
